

NATHAN FARREL

FULLSTACK DEVELOPER

+62 896 6625 9219 | nathanfarrel1124@gmailcom | Banyumas, Indonesia

PROFILE

I am a highly motivated and eager junior developer with a strong foundation in computer science principles. I am proficient in several programming languages commonly used for fullstack development, including Python, Golang, and JavaScript (Node JS). I am a quick learner and can readily adapt to new technologies and frameworks. My problem-solving and analytical skills enable me to efficiently identify and resolve technical challenges.

WORK EXPERIENCE

FULLSTACK DEVELOPER

PSI GLOBAL TECH

June 2024 - Present

- Built and shipped end-to-end web applications using modern frontend frameworks and scalable backend architectures.
- Developed performant, responsive UIs with strong focus on usability, accessibility, and clean component design.
- Implemented and maintained REST APIs, including authentication, authorization, and validation.
- Optimized application performance through query tuning, caching strategies, and frontend render improvements.
- Designed and maintained relational and/or NoSQL databases
- Integrated third-party services (payments, auth, analytics, cloud APIs) with a focus on reliability and security.
